ABOUT ME

I'm currently studying Software Engineering at UCS (University of Caxias do Sul). My main programming language is Javascript, in addiction, i have a good knowledge of Typescript, PHP, Flutter and frameworks like Reactjs and Nestjs. I'm a productive person that's always in search of learning something new and expanding my knowledge.

WORK EXPERIENCE

16/01/2023 – CURRENT Caxias do Sul, Brazil

Logistics Assistant Time Log Soluções em Logística

I developed and maintained complex spreadsheets for communication and management of client data, finances, and demands, regularly updating them to ensure accuracy and relevance of information. I was also responsible for generating transport documents, ensuring compliance with specific regulations and requirements.

16/03/2024 – CURRENT Caxias do Sul, Brazil

Web/Mobile Fullstack Developer Grupo Primo | Topinvest Educação Financeira

I contribute to the development of our company's flagship project alongside a team of web developers, utilizing ReactJS for the frontend and NestJS for backend. I manage and create MySQL databases and leverage AWS for efficient deployment. Additionally, I maintain our primary website with PHP and am actively involved in developing a cross-platform mobile application using Flutter. I am also studying and implementing CI/CD workflows to automate our software delivery pipeline to ensure efficiency and reliability.
